

Sales Reporting

Item Sales Rank Contribution

About the report – This report ranks item sales for a given time period and visually presents which contributes the most to sales. The data is being pulled from the Item Table and makes use of Sales and COGS flowfields. An intermediary worksheet (PctPivots) is used to provide summary information seen in the graph and pie chart.

Dates used in filtering must be formatted to the same format used in NAV.

Modifying this report – This report can be modified by entering design mode from the Jet tab.
