Microsoft Dynamics NAV

1. Dynamics NAV – Business Central

Benefits and Overview

All-in-One Business Solution fully integrated and tailored for easy deployment, user friendly, reliable and secure.

o   Manage your Financials.
o   Automate and secure your Supply Chain.
o   Smart Sales.
o   Improve Customer Service.
o   Projects on time and under budget.
o   Optimize your Operations.
o   Control your Business Reporting.

On-Prem or Subscription

Dynamics NAV Business Central comes in two options: On-Prem perpetual license or in Subscription mode (monthly payment). Licensing is based on Named Users.

Modules

1.   **Essential** - Invoicing, purchasing, Resource management, Budgets, Finance, Fixed Assets, Workflows, Contact Management, Single Inventory, Advanced Sales, Advanced Inventory, Distribution, Warehouse Management, Project Management.

2.   **Premium** – Licensing adds service order management and manufacturing, bringing the full breadth of the popular Dynamics NAV application to the cloud.

Take a closer look

All over the world our economy has been hit hard by this calamity called "COVID-19". It has reached our communities, our loved ones and affected our Companies. At KE Consulting we are aware of the hardship and battle that all local Businesses are, and will face, in the near future result of this plague which unfortunately will endure for some time.

So, KE Consulting would like to contribute to be a driving force for Business continuity in the UK for all our dear Customers as well as our future Customers.

*At KE Consulting we are launching a set of positive incentives to relieve some of the economic strain our business communities are under. As from 1st of April 2020, KE Consulting offers a **20% reduction** to **New Customers** of your actual valued Dynamics NAV contracts (excluding software licenses) for:*

- *Help-Desk Support Service contract*
- *Project Completion*
- *Daily rate (Consulting/ Development/ Project Management)*

*At KE Consulting we extend this offer, as from 1st April 2020, to our loyal **Existing Customers**, with a **20% reduction** to all existing and future Quotes / SOW / SCR / Projects as well as our Daily Rate for all confirmed and approved work until 30th of April.*

This is our small contribution for the welfare and support of our existing and future business partners owners, employees and their families.

2. MOBILE NAV

MobileNAV is the ultimate mobile solution for Microsoft Dynamics NAV (formerly Navision). It ensures online and offline work for typical out-of-office ERP activities, like:

Sales   **Field Services**   **Warehouse**

Furthermore, it guarantees real-time tracking of your business, for example, in warehouse and production-related workflows. Each field and functionality is configurable inside NAV, so you can adopt custom modules and even specialized vertical solutions. Simply said, MobileNAV is a new user-interface for Dynamics NAV, optimized for smartphones and tablets. You can access your real-time data and functionality similarly to desktop clients. Offline capability allows to continue your work even without active network connection.

3. General Data Protection Regulation (GDPR)

The General Data Protection Regulation (GDPR) has comes into force in May 2018 and represents a significant overhaul of data protection legislation; the accountability principle will mean that businesses will need to examine how they hold and use data and take steps to demonstrate compliance with the data protection principles.

As businesses hold huge amounts of personal data relating to Customers, Vendors and Employees within their Dynamics NAV systems, currently there is very little functionality in existing or older versions (pre-NAV 2018) to support the new legislation.

KEC has spent a considerable amount of time to study and decipher the GDPR legislation, allowing the development of a Solution for GDPR management that will be embedded in your Dynamics NAV application.

Perspective of GDPR
- Personal / Sensitive data discovery
- Right to be Informed
- Right of Access
- Right to Rectification
- Right to Erasure
- Right to Restrict Processing
- Right to Data Portability
- Automated Encrypt and Destroy
- GDPR activities register.

Discover **Manage**

Protect **Report**

KEC has a methodology to guide our Customers through all four stages mentioned above and identify the needs to apply GDPR to fit each Company requirements and compliance within the Regulatory law.

Contact us and schedule an appointment for a free assessment.

4. Make Tax Digital (MTD)

Dynamics Nav is published by Microsoft Corp. and each publication includes country specific versions, and in the UK we have a GB version. The VAT MTD is specific only to the UK. Microsoft UK are responsible for liaising with HMRC to ensure all supported versions of Dynamics Nav will be VAT MTD compliant, such as:

- Dynamics NAV BC

- Dynamics NAV 2018

- Dynamics NAV 2017
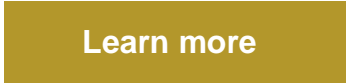

- Dynamics NAV 2016

- Dynamics NAV 2015

All other versions prior to Dynamics NAV 2015 such as NAV 2009 not supported by Microsoft, then Customers are liable to take action to make it compliant with MTD.

The expectation is that this will involve development to allow the transmission of VAT returns directly to HMRC VAT databases. That said, it is important for companies to be on a supported version to receive any legislative updates as part of your enhancement plan.

KEC can support you to become MTD compliant even if you have a Dynamics NAV Version prior to Dynamics NAV 2015.

Contact us for a free assessment.
